

DHP Contractor Newsletter

January 26, 2010

Dear DHP installers,

Congratulations on a very successful 2009! As we move into the New Year, we would like to thank you all for your hard work and quality installations. The Project originally set a goal of 2,500 approved installations in the Northwest region, and thanks to your efforts, we were able to install 3,502 ductless systems during the initial pilot phase [October 1, 2008 - December 31, 2009]. We would especially like to recognize the companies that achieved the highest number of approved installations in each state:
